### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Response to Amendment***

1. As per Applicant's instructions in Paper 8 as filed on 5/10/04, claims 1-24, 30-32, and 34-36 have been amended, and claims 25-29, 33, and 37 have been canceled.

### ***Response to Remarks***

2. Applicant's arguments with respect to amended claims as above have been carefully considered but are moot in view of the new ground(s) of rejection incorporating the same reference (Kawai et al) used in the last office action.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-24, 30-32, and 34-36 are rejected under 35 U.S.C. 102(e) as being anticipated by Kawai et al (6,680,746 B2).

**Regarding claims 1-2, 8-9, 30-31, and 34-35**, Kawai et al discloses a storage medium (24, 26) for storing computer program, a control method, and a communication apparatus connected to at least one camera and one monitor, comprising:

Art Unit: 2613

a reception device (Figs. 1, 46, element 22, CPU) for receiving the information concerning the state of the at least one camera;

a transmission device (36) for transmitting the information of the state of the camera received by the reception means to the monitor (28) so as to change display concerning the state of the at least one camera displayed on the monitor;

wherein, when the state of any one of the camera is changed, the transmission device transmits the information concerning the changed state of the one camera to the at least one monitor via a network (col. 29, lines 20-39; col. 31, lines 40-67; col. 32, lines 1-38),

wherein, when a request from the at least one monitor is received, the transmission device transmits the information to the at least one monitor via a network (col. 10, lines 1-20).

**Regarding claims 15-16, 32, and 36,** Kawai et al discloses a storage medium (24, 26), for storing computer program, a control method, and a communication apparatus connected to at least one camera and one monitor, comprising:

reception means (Figs. 1, 46, element 22, CPU) for receiving the information concerning the state of the camera;

processing means (30, 4503) for changing a display image concerning the state of the camera displayed on the monitor, in accordance with the received information concerning the state of the camera; and

transmission means (36) for transmitting the display image concerning the state of the camera processed by the processing means, to the monitor (28).

**Regarding claims 3, 10, and 17,** Kawai et al discloses a display map screen representing a location at which the at least one camera is disposed (Fig. 49);

**Regarding claims 4, 11, and 18,** Kawai et al discloses a display of a map concerning a photographing range of the camera (Fig. 49, 88)

**Regarding claims 5, 12, and 19,** Kawai et al discloses an information concerning a zooming of the camera (88).

**Regarding claims 6-7, 13-14, and 20-21,** Kawai et al discloses communication apparatus, camera, and monitor being integrally provided (Fig. 46).

**Regarding claims 22-24**, Kawai et al discloses transmission means transmitting the information in correspondence with the change of the state of the camera in a particular location, and transmitting the display image in accordance with a request from the monitor, wherein the request is sent from the monitor every time (abs.).

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Shawn S An** whose telephone number is 703-305-0099. The examiner can normally be reached on Flex hours (10).

7. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
